Lexmark Laser Printer Pre-Installed Solutions Guide

A New Era of Innovation and Technology from Lexmark

When you pair award winning Lexmark hardware and innovative solutions software, the combination is extremely powerful. You'll unleash greater efficiency and productivity, accelerate paper and energy savings, and reap the benefits of streamlined workflows. Below are a list of Lexmark devices with pre-installed solutions that have been developed for Lexmark's solutions-enabled printers and multifunction devices. These devices feature the Lexmark Embedded Solution Framework (eSF), a platform that allows applications to run directly on the device, eliminating the challenges of managing server-based applications.

Solutions are divided into the following categories:

Copy, Print & Fax
Applications supporting specialized paper-oriented functionality

Capture & Route
Workflow solutions for distributed document capture and routing to specific locations

Communicate & Personalize
Tools that allow the Lexmark eTask interface to be customized for a specific purpose

---

Change Background
Allows you to change the background image that displays on the device's home screen and the images that display when the device is in idle or standby mode.

Forms & Favorites
Forms and Favorites saves time and money by eliminating pre-printed forms.

Eco Settings
Lets you change up to six different device settings to enhance environmental savings: Eco-Mode, two-sided printing, time to standby mode, time to Power Saver mode, screen brightness, and Quiet Mode.

Card Copy
Captures an image of both sides of an ID card or credit card and prints the images in an enlarged view on one side of a sheet of paper. The digital file can also be saved in a network folder. This application does not require a hard disk, but will use the additional storage capacity if one is present.

Multi Send
Capture and route a document to multiple destinations simultaneously and print a copy if you choose. Documents can be routed to email, network folders, FTP sites, or to a remote Lexmark printer.

Showroom
Lets each person create personalized shortcuts for their frequent copy, fax and e-mail tasks. Lets you name your shortcut and choose the icon. Saves your document settings, e-mail addresses and phone numbers so you don't have to re-enter them.

Change Language
Allows you to easily change the display language used on the operator panel menus from the home screen.

Scan to Network
Lets you capture a digital image of a hardcopy document and route the file to a shared network folder. You can preview the first page, rescan the document if necessary, and print a confirmation page with delivery status and time.

My Shortcut
Lets each person create personalized shortcuts for their frequent copy, fax and e-mail tasks. Lets you name your shortcut and choose the icon. Saves your document settings, e-mail addresses and phone numbers so you don't have to re-enter them.

Web Services
Lets a user scan images to a Windows 7 PC. The PC must be networked and have Web Services enabled in order to accept scans from the Lexmark MFP.
